> FOR PRESIDENT, WILLIAM HOWARD TAFT.

It is reported that the suffragists of this country are threatening to storm, 50,000 strong, the Republican National Convention to meet the coming summer at Chicago.

After consultation with the Right Reverend C. P. Anderson, Bishop of Chicago and with his approval, Dean Sumner and his co-workers of the Cathedral of Saints Peter and Paul, have agreed upon an advanced policy with regard to the administration of marriage in the Cathedral. Beginning with Easter, no person will be married at the Cathedral unless they present certificate of health from reputable physicians to the effect that they are normal. physically and mentally and have neither incurable nor communicable disease.

The American people of all sections have taken note of the real spirit of the Roosevelt propaganda and what little enthusiasm it at first engendered has been dissipated. The man who seeks to dominate American conditions by his personality has lost the magnetism of the past because he has turned from the Republican principles that alone could attract and hold to him the party to follow the chimeras that one must adhere to in the promotion of personal power. Not all the money lavishness of the Roosevelt promoters can influence the verdict of the people. The Roosevet campaign is a failure.—Baltimore American.

In 1864 when the Civil War was on there was an organized movement among certain Republicans who were opposed to the nomination of Lincoln for

Judge Thomas on the Situation.

a second term. The true Republicans demanded the renomination of Lincoln. He was no minated and

elected in 1864 for the second term.

In 1872 when certain disappointed men set out to betray General Grant the true Republicans came to his rescue and fought his battle through a very exciting campaign to a glorious end.

In 1912 a radical minority is trying to force upon the Republican party experiments in legislation which are at variance with the policies that have contributed to Republican success and great national progress.

The prosperity and welfare of the people of the United States demand the renomination of President Taft, whose administration of the office of President has given assurance of his fidelity to true Republican principles, and his ability to discharge in a satisfactory manner the duties of his high office.-Judge George M. Thomas in Vanceburg Sun.

Roosevelt defeated and repudiated, will it is said at Washington, spring a dark horse to defeat Taft at Chicago. This is a mere twaddle, as there will be practically nothing form, nominate Taft and adjourn. Taft already has enough votes, counting the solid South and Pennsylvania, to turn the trick. T. R. had better keep out of politics and go back to his desk and stay there.

The Kentucky farm train is on its travels and the dispatches bring the gratifying intelligence that it is attracting large crowds at all stopping places.

The Agricultural Special.

The train is to continue its travels for a month, in which time it will visit every section of the State and almost

every county that can be reached by railroad. Kentucky is just entering upon the farming season of 1912 and the advent of the agricultural special is timely. Agriculture is our "main night watchman. It is not the elestake" in Kentucky, and there is progress in cage. It is not the scrubwoman who out 'Hello, Hank!' and the guy was so agricultural endeavor as well as in other lines of occupation. Most of the States have been the town to bed. All of these are to you. I'm drivin' this team right spending money liberally to educate their the traffic 'copper.' farmers to more intelligent effort and to more intensive farming, and expenditures of that sort are a good investment. In Kentucky we are waking up to the necessity of some effective campaigning and the farm train is one of the results.

Commissioner Newman, Judge Barker and their fellow workers are to be congratulated on the auspicious opening of the farm train campaign. It will exert a strong influence for "more crops and better crops," and for general improvement in all vocations and conditions of rural life. - Courier-Journal.

Women in middle age often complain of hot flashes. They are at that stage of life-when their delicate organism needs a tonic and helping-hand which only Dr. Pierce's Favorite Prescription can give them. Many women suffer needlessly from girlhood to womanhood and from motherhood to old age-with backache, dizzimess or headache. A woman often becomes sleepless, nervous, " broken-down," arritable and feels tired from morning to night. When pains and aches rack the womanly system at frequent intervals, ask your neighbor about

Doctor Pierce's Favorite Prescription.

MRS. J. IMHOF, of 321 S. Bentalon Street, Baltimore, Md., says: " I wrote you about nine months ago, telling you of my condition. I have a fine baby girl-she weighed nine pounds when born. She is my third child and the strongest of them ail. My suffering was only for two hours, I took several bottles of 'Favorite Prescription' and one of Dr. Pierce's Smart-Weed. I never had a well day before I took your medicines. I was surprised how well I felt-could eat-was always hungry, and never had a sick stomach. The nurse who was with me said the medicine was wonde ful because I got along so nicely after having had so much trouble before. She intends to recommend it to all her suffering patients. Everybody is astonished at me because I only weighed lot pounds before and now I weigh 135. I have had several ladies come to me and ask about Dr. Fierce's redicine. I am willing to recommend it to all who suffer and want help.

Smugglers Tried to Beat Uncle Sam

NEW ORLEANS.—One of the "oddest" cases that have puzzled the local customs department happened a few days ago, and, as in the great percentage of cases, the land agents of Uncle Sam guessed right and saved the old gentleman a few dollars in addition to knowing that they had saved him from being "bunkoed."

Under the parcels post and the cusfor a certain class of "samples" which may be sent into this country. Although strict restrictions are drawn, there are many foreigners who try every year to use this little loophole as one through which to send goods without paying duty. Knowing this, all "samples' 'are subjected to close

Then they calmly put the slippers on a shelf and waited-and smiled. And in three weeks there came a second package of "samples" to the same party. > Trinidad. There was to be a steamer soon t New York. This is a clean, typical Englis city, very quiet at night. The bay is grand We enter the Gulf of Paria through the Dragon's Mouth, a very narrow straight an each side has lovely summer homes of th English people that are on the island for the Government or business.

It reminds one of Thousand Islands. W anchored three miles out and enjoy going as we have in the motor boats; very fre quently we are pretty wet when we land but oon dry in these warm cities. The electric car system is pretty good, as it comes from New Jersey. The Public Buildings very good all with beautiful gardens and courts fille with plants and flowers that make hotel pala gardens look like a millinery shop, Th English residents have fine club house, modern hotel, bathing beach &c. The athletic fields are great; we saw a football game. At every turn one is asked to buy a parro', monkey or some other thing, and the number of them aboard would surprise any one. parrot is usually priced at 40 shillings, \$5, and is usually bought for \$2. Monkeys are bought for \$5. We were out to the famous Pitch Lake and it is a stormy place. A place covering 110 acres is filled with soft pitch or asphalt and after digging out a few feet is

level the next morning. Our next stop was Fort of France, Martinque, as French as any city in France. I has many good buildings, Public Library, Palace of Justice, statue to the Empress Josephine, who was born there. It is at the base of a monotain range rising to 5,000 feet. The market was fine and the fruits good and

It was fine to go shopping, as only French is spoken. We then went to St. Pierre and saw the modern Pompeii; the desolation is sppalling and one is chilled by the place, although it was over 100 degrees in the shade. Mt. Peele is smoking at several places and may break out at any time. Lincoln's birthday was celebrated aboard by trimming the ship with fl.gs, American music at dinner, Lincoln pudding to eat and a lovely dance with decorations that were beautiful and all electric lights on deck covered with red, white and blue Japanese lanterns, and at the close all stood and sang the Star Spangled Banner Government for over-buying cigars, bay rum and America.

The next day we were at Charlotte Aminia, Iale of St. Thomas. A beautiful bay

and an island covered with cultivated fields greeted our eyes. We were soon ashore and everyone was busy shopping. One hat store here has more Panama hats than all Maysville could wear giving each one a hat. The town of 1,000 was beautifully decorated for a celsbration of Valentine day. We went to a reseption of the Acting Governor in the afternoon and in the evening the cruise party was entertained with a dance and barquet at the Grand Hotel and there we had the best cime of the whole trip, met all the Danish ofetti was showered by the barrel on every one. t near midnight the band played the national a'rs of England, France, Denmark and then all

tie crowd followed us to the deck singing and

Early the next morning we were at San aun, Porto Rica, on our own sail, and right good it looked to see the stars and stripes floating from the public buildings. San Juan is quite Spanish in architecture in the city, but the suburbs are lovely and has many handsome homes and gardens that would make a cottage look like a palace. They have a good system of electric cars, lovely parks, bathing beach, etc. The island has many miles of good roads

and automobiles are pleatiful. The island is pretty well cultivated and there tropic fruits of all kind are plentiful and cheap. The whole party was pleased with San Juan

and think Uncle Sam has a fine island, and one that should attract people and money, for it would make an ideal home for the wealthy, and the poor could enjoy eternal summer and not worry about the coal raise. Two nights and days and lovely Nassau

reached. I was the second one ashore-tried awful hard to be first, but one beat me to it The biggest part of the party went to the Island Beach and went in bathing, and it was fine. Imagine bathing in the sea in February;

well it was as warm as June. Half-way the island there is a bowl, and here one is given free all the fruit they can eat, oranges pared, bananas, cocoanuts, and and they are the best ever. Flagler has built a magnificent hotel he e and the garle's are the finest in the world; no place else has

My friend is an English army officer, and certainly treated me royally; both he and his wife even came out to the steamer.

About fifty of our party stopped in Nassau and will return via Miama, Florida.

Two more days and nights, unfortunately of storm after storm, and from June to February change in weather, brought us to New York. Then the scramble through Custom House any had to walk up and add his mite to the Panama hats, etc.

So ended one of the most delightful trips have ever known, and I can only wish that all my friends will some day see the beauties of the West Indies, the Canal, etc.,

SUCH EVIDENCE OUR READERS CANNOT DIS-

As we take up THE LEDGER week by week, we are struck by the bearty, unmistakable way in which witress after witness speaks out as Mrs. McClelland does here. If these people were strengers living miles away, we might take little notice of them. But they are not. They are our neighbors, living among us-Their word is too easily proven to admit of any doubt. They speak out in the hope that their experience may be a guide to others. announcement.

GREAT FORTUNE ONCE MORE COMES OUR WAY AND JUST IN TIME FOR EASTER

One of our buyers happened in when a Boston manufacturer received a cancellation of a large order from a New York concern, and immediately made him a cash offer which was finally accepted. These goods, made expressly for this spring's trade, are now in. These are without a doubt the finest and most beautiful line of Shoes, Oxfords and Pumps ever shown here. If you want to see what Dame Fashion has decreed for this spring's wear come to the Big Bargain Shoe Store tomorrow and see footwear that is being shown now for the first time, even in the fashionable East. QUALITY AND STYLE MAKE THESE PRICES THE MORE REMARKABLE. Ladies' White Canvas and Nuback Pumps, \$4 values \$2.49. Ladies' Patent Leather White Canvas and Velvet Two-straps and Pumps, \$3 values \$1.99. Ladies' Patent and Velour Pumps, \$2.50 values \$1.69.
